

## WOLFPACK CLUBS FOR MOTORCYCLE GROUPS

### »» CONNECTION, CONFIDENCE, SECURITY WOLFPACK CLUBS DESIGNED FOR YOUR NEEDS

A motorcycle club is all about the ride. As a President, a Road Captain, and a leader of your club, you want the best experience out there. WolfPack is built for this need – we address everything from planning and sharing ride maps, to staying in sync on the road, and more. With WolfPack Clubs, each member you choose to include gets those abilities in the palm of their hands.

### WolfPack Clubs allows you to offer the full WolfPack experience to members of your club

WolfPack Clubs provides a simple way to manage your member subscription:

#### ● ONBOARDING

In seconds, you can create a new account for your members or invite existing WolfPack users to join your account.

#### ● BILLING MANAGEMENT

Manage a single bill and method of payment for your whole club.

Wolfpack creates a peace of mind for leaders and riders alike, through:

- Managing ride participants with fewer Road Captains for each ride.
- Group visibility – a true “herding cats” solution – see where your riders are, with a single glance at the screen.
- Group Turn-by-Turn Navigation – ride participants navigate the same route with turn-by-turn guidance using their mobile devices.
- Staying on the same route together without hand signals or risky maneuvers.
- On-the-ride safe messaging – experience WolfPack’s no-texting / no voice communication through a simple “three tap” mechanism, while keeping your eyes on the road.
- Club chat - WolfPack Clubs automatically creates a “Pack” for your club members, with a private chat room just for members. Plan events, send club news, and update everyone from one place.
